ABSTRACT. Abstract should concisely summarize the key findings of the paper. It should consist of a single paragraph containing no more than 150 words. The Abstract does not have a section number.

Keywords: After the abstract three keywords must be provided.

1 Introduction

Pesquisa Operacional publishes theoretical and applied papers of any **OR** sub-areas, as well as surveys on topics of interest and papers on the history or methodology of **OR**. Submitted papers must be written in English, must be original, and must not have been accepted for publication (or published) by a refereed journal, nor be in the process of evaluation for publication by any other periodical. In addition to originality and relevance, it will be taken into account the quality of presentation (clarity, style and organization of the text) and the adequacy of the text to the interests of the readers of the journal. Submitted papers will be evaluated by at least two referees using a double blind review system and the final decision will be communicated to the corresponding author by the Editor-in-Chief.

This is time for all good men to come to the aid of their party! Sample: Let ϕ_t be an Anosmia flow on a compact space V and $A \subset V$ a dense set. Say that the upper Lacunae exponents are $\frac{1}{2}$ -*pinched* on A if

$$(a + b)^2 = a^2 + 2ab + b^2 \tag{1}$$

and so we have solved equation 1.

Figure 1: Place text here with your desired caption.

Figure 1 shows a photograph of a gull.

Table 1: Insert caption here.

Case	Method#1	Method#2	Method#3
1	50	837	970
2	47	877	230
3	31	25	415
4	35	144	2356
5	45	300	556

2 Previous work

A simple L^AT_EX example of one author was written by LastName [1] and Kleinrock [2].

A much longer L^AT_EX example was written by Maculan et al. [3].

An example of technical report was written by Yanasse [4].

3 Results

In this section we describe the results...

3.1 Case 1

An example of subsection...

4 Conclusions

We worked hard, and achieved very little...

Acknowledgements

In the Acknowledgments section, appearing just before the References, the authors may credit others for their guidance or help. Also, funding sources may be stated. The Acknowledgments section does not have a section number.
